

Articulation Agreement

Between

Atlantic Cape Community College

and

UNITE HERE Local 54

This articulation agreement specifies the requirements and conditions for qualified students from UNITE HERE Local 54 (hereafter, "the Apprenticeship Program", as a partner in New Jersey Pathways Leading Apprentices to a College Education (hereafter, "NJ PLACE"), to complete the Culinary Arts Associate in Applied Science degree at Atlantic Cape Community College (hereafter, "the College" or "Atlantic Cape").

Upon official presentation of the completion of a UNITE HERE Local 54 Apprenticeship Training Program, or certification as an active registrant in same program, interested students will be automatically accepted into the College's Associate in Applied Science in Culinary Arts program. The Transfer Institution will be identified as NJ PLACE (CEEB Code 900000).

Attached to this agreement is the Transfer Course Agreement. The Transfer Course Agreement lists the manner in which the Apprenticeship Program translates into NJ community college equivalent coursework or Culinary Arts credits at Atlantic Cape. It should be noted that qualified students in the Apprenticeship Program can complete the degree requirements at any community college in New Jersey thus waiving the residency requirements of each college. Any credits attained in this manner that pertain to this degree program will be considered native credits at Atlantic Cape. NJ State requires that all students pursuing an Associate in Applied Science degree complete a minimum of 20 general education credits. Credits from the Apprenticeship Program may be credited toward the technical, career electives, or general education portion of the AAS degree as determined by the College in accordance with the apprenticeship training completed and the degree program pursued.

These documents may be revisited annually to reflect curriculum changes by the College and/or curriculum changes of the Apprenticeship Program.

For Atlantic Cape Community College

Dr. Peter Mora, President
