

**Articulation Agreement**

**Between**

**NJ's 19 Community Colleges**

**And**

**International Association of Heat and Frost Insulators and Asbestos Workers**

This articulation agreement specifies the requirements and conditions for qualified students to complete the Technical Studies Associate in Applied Science degree at NJ County Colleges.

Upon official presentation of completion of an Association of Heat and Frost Insulators and Asbestos Workers Apprenticeship Training Program, students will be automatically accepted into the NJ County Colleges' Technical Studies Associate in Applied Science Program.

Attached to this agreement is the Transfer Course Agreement. The Transfer Course Agreement lists the manner in which the apprenticeship program translates into NJ County College equivalent coursework or Technical Studies credits. It should be noted that qualified students in any Association of Heat and Frost Insulators and Asbestos Workers Apprenticeship Program in New Jersey can complete the degree requirements at any county college in New Jersey thus waiving the residency requirements of each college. NJ State requires that all students pursuing an Associate in Applied Science degree complete a minimum of 21 general education credits. Additional credits from apprenticeship training may be credited towards either the career electives or general education portion of the AAS degree. This credit application will be determined in accordance with the apprenticeship training completed and the degree program pursued. Further, excess credits not applied from the ACE evaluation may be applied to a Bachelors Degree program at a participating baccalaureate institution.

These documents will be revisited annually to reflect curriculum changes by NJ County Colleges and/or curriculum changes of the International Association of Heat and Frost Insulators and Asbestos Workers Apprenticeship Program.
